Why Instabind?

1. Looks much better! As illustrated in the picture on the left, the nylon str used to stitch the binding to the carpet is usually visible. Instabind is always invisible because of its unique fastening method.
2. No waiting! You or your installer can put any binding of your choice ont any piece of carpet ON THE SPOT!
3. No wasted carpeting! From area rugs, hall runners, stair runners and b mats - With Instabind there is no such thing as a *carpet scraps*. Use yo imagination and make use of all left over carpeting!
4. Less money. No trip or delivery charges incurred from typical machine stitched binding will apply to you with Instabind.
5. No mistakes! No chance of your new carpet being delivered with the w binding attached. Instabind is completed right before your very eyes.

**BIND YOUR
OWN CARPET**

What is Instabind?

Instabind is a revolutionary idea, invented by two CFI Certified installers who recognized a problem and sought a solution. Instabind streamlines the normally tedious process of binding carpet edges. This unique invention requires minimal effort to apply a beautiful finished edge to any piece of carpet.

Who can use Instabind?

Homeowners, installers, carpet dealers, retailers and all tradesmen alike. In fact, the procedure is so simple that any carpet scrap becomes a keeper!

skilled craftsman with expensive machinery to have this service done. This requires substantial time and usually costs quite a bit of money.

Instabind can be applied on site, with a variety of styles. Not only will Instabind beautify an unfinished edge, but it will prevent it from unraveling or fraying for the life of your carpet - guaranteed!
